

Appl. No. 10/022,186
Amdt. Dated April 13, 2006
Supplemental Response/Amendment

Remarks/Arguments

Applicant appreciates the Examiner's issuance of the Office Action dated April 7, 2006, vacating the Advisory Action of March 24, 2006 and correcting the application status error on the part of the Patent Office. In addition, applicant appreciates Supervisor Edward Urban taking the time to communicate with Applicant's attorney Karry Wang via telephone in resolving the issues surrounding the erroneously issued Advisory Action.

Per the request of Supervisor Urban during his telephone discussion with Applicant's attorney Karry Wang on April 11, 2006, Applicant has amended independent claims 1, 7 and 8 to recite languages proposed in Applicant's Response to Office Action of April 27, 2005. Specifically, the claims have been amended to recite "broadcast stations registered with the system" and "connecting the call to the station" requested via the call. Applicant appreciates Supervisor Urban's indication that the claims, as amended, would likely be allowable.

The Examiner and Supervisor Urban are invited to telephone the undersigned representative if it is believed that an interview may be useful for any reason.

Respectfully submitted,

Law Offices of Karry W. Wang
